For fifteen years previous to 1854, I suffered so much from Dyspepsia, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my budness, and was sinking into a decline, and I was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any reflet, till I was advised to use your 'Elixir,' and from the time I began taking it I gradually improved, till was completely restored to bealth. The dreadful auffering I indured from Dyspepsia I cannot describe; but I am confident that without the use of your 'Elixir,' I should be in my grave. WEDNESDAY, SEPTEMBER 15, 1858. Reading Matter on every page.

The Memphis Branch Railroad-Hew to Build It. In our article of yesterday, we showed by a comparison with other railroads, not only in Kentucky, but in the whole United States, that the Memphis brauch will cost \$30,000 per mile, or \$1,440,000, for the road complete. The question we now propose to consider touches the mode of

raising this sum of money. The plan which Gov. Helm laid before our city fathers, and which, we are sorry to say, he decoyed them into adopting, does not provide the neces sary means by many thousands of dollars. The Covernor don't seem to understand his own plan-We will develop it for him, and make that plain which he has left too much befogged for the disburser of millions of the people's money in the onstruction of an important railroad.

He proposes to build this branch road with \$300,000 Logan county bonds, \$300,000 Louisville city bonds, \$200,000 first mortgage bonds, and \$100,000 private subscriptions. The grand total of his means is, therefore, \$900,000, to complete a work which we say will cost \$1,440,000. Here, then, is a deficit of \$540,000, and as the Governor don't make any provision for it, we suggest that as the road will pass through Warren and Todd counties, is well as Logan, and so near to Simpson (if not through it) as to benefit it very much, these three counties should bear a portion of the hurden. But as more of the road will be in Logan than in Warren, and more in the latter than in Todd, these counties should contribute about in the following proportions: Warren county \$250,-000, Todd, \$200,000, and Simpson \$100,000. This ontribution would make up the deficit, and overun it \$10,000-a sum which the Governor may ud very necessary before his road is finished Now, this development of the Governor's plan build his hrauch road upon bonds, or in other

words, upon credit, gives him the following 'odd

The plan, however, does not provide for such iscounts as he might, in the plenitude of his financial wisdom, consider necessary for the interests of his branch road. It would not do fo him to sell his county bonds, or his Louisville city bonds, or his first mortgage honds, at less than seventy-five cents on the dollar. Besides injur ing the credit of the counties, the city and the rond, by coming under these prices, he might not have enough to complete his road, and might have to call for more! more!! more!!!

We think it would be well, therefore, for Gov. llelm to turn a few of the letters he is writing to the papers here into stump speeches, log rolling addresses, and bush-whacking appeals to the people of Warren, Todd and Simpson counties, to make the subscriptions above named. It would ook much better to begin operations down there. The subscription asked of Louisville ought to be the last. It should be held back as a kind of reserve-a help which is to come when all others fail. We should feel, way off here, much more like the road would be built if we were the last called

upon instead of the first. We confess, however, that we don't like this plan of Gov. Helm-this building of a railroad with bonds, which is but another name for doing it upon credit. Experience has taught us that it is a very dear way of getting a railroad. The Governor would not probably realize more than a million of dollars out of the \$1,350,000 in bonds which we have enumerated for him, and we all really be worth par. It would be a question, there fore, for the counties and the city to consider whether they would not prefer giving him th million of dollars in money instead of \$1,350,000 in bonds, upon which they would be paying inter est while he was shaving them off to the merciles bylocks who infest the land. Instead of paving nlerest on the bouds for twenty or thirty years it might be better to save the twenty-five per cent. iscount themselves, and pay off the principal as the branch road progressed; for if it did not advance any faster than the main stem has gone, they would have plenty of time to pay off the debt by direct taxation without ever feeling the

But the Governor says his branch road can be ompleted for a much less sum than \$1,440,000 .-He assured our city fathers, while he was getting them to pass his three hundred thousand dollar ordinance, that the branch road could be completed for \$500,000. Now that he has got the council to pass his ordinance, he says the road will cost \$980,000, and gives Mr. Olmstead as authority. We showed yesterday that he misquoted Mr. Olmstead in a sum sufficient to buy the rolling stock for his road. This we fixed at \$2,000 per mile, and it is, therefore, fair to add \$96,000 to the last estimate of Gov. Helm. While, there fore, he was persuading our city fathers to pass his ordinance, he said his road would cost \$800, 000, but now, that his ordinance is passed, he may be said to run up the cost to \$1.070,000. This is ar increase of the good round sum of \$270,000 in a very short time, and the Lord only knows how much he will increase it if the people here will only ratify his ordinance. We are very much afraid that e will at ouce swell the cost beyond our estimate

f \$1,440,000. But if the branch road is only to cost \$1,070,000 the Governor cannot more than realize that sum out of the \$1,440,000 of securities that we have provided him with by developing his plan. He would have \$1,350,000 in bonds, which, according to his rate of 75 cents on the dollar, would net him \$1.012.500. Add to this what he would realize out of \$100,000 of individual subscriptions, and he would just about have the sum that he says will

If, howover, the road can be completed for \$1,070,000 in cash, we would like to see it done, without feeding so many usurers and Shylocks with exhorbitant discounts. We suggest to those gentlemen in Logan county, who are writing letters to our city fathers, which, in connection with Gov. Ilelm's communications, have assumed the character of ordinances, to be published day after day at the expense of the city they are trying to bleed to the time of \$500,000, that they shall let us alone for the present, and exert some of their eloquence at home. Let them begin their branch road at home, somewhat in accordance with the following suggestions:

Those who own lands upon the line of the proposed road will he more benefitted by it than any one else. As the road is 48 miles long, there will be 96 miles of lands bordering upon its two sides. and consequently 61,440 acres. These lands lie in Warren, Logan, and Todd counties, and the average value of lands in these three counties. taken together, is \$828 per acre. We may, therefore, safely assume that the lands now lying where this road will run, are worth upon au average \$3 00 per acre. If they are worth \$8 00 per acre, without a railroad passing through them, they vill be worth much more when severed by the iron highway. We know that their value will be enhanced much more than the discount at which Gov. Helm will sell his bonds, but we will assume that it will be 25 per cent. The owners of these 61,440 acres of land may, therefore, take \$2 in stock for every acre of land without losing one dollar. Indeed, they would be making as clear profit whatever their stock in the road would be worth; for the increased value in their property would more than make up what they paid for the

stock. By this process the owners of the lands immediately upon the road would raise the sum of \$122.880. Those owning the next nearest lands should take one-half this sum in stock, and the next nearest one-fourth. In this way, the branch road would raise \$215,040 from persons who would absolutely be making money by the operation. To this, add the \$100,000 of individual sub COMMISSION SHOE STORE,

What right, and where the necessity of investing a large amount in the locomotive works, when the read was unfinished?

When material and work has been required for the lonisville and Nashville road, why has not the same been advertised for, thus giving all the mechanics of the clip an opportunity of bidding on the same?

If Gor. Helm will answer these questions satisfactorily, he will gain many friends to the present indicate that the necessary tax would be very heavy in any one year. Logan county would have metal and work has been required for the same he will go home and play them over again from the office of the Lexington and Frankfort Rail has the office of the Lexington and Frankfort Rail-would not be the office of the Lexington and Frankfort Rail has the retentive works, when the redollar, he office of the Lexington and Frankfort Rail-would not be the office of the Lexington and Frankfort Rail-would not be the office of the Lexington and Frankfort Rail-would not be constituted for the prevention of the same has a small iron set.

The left the close of the Lexington Rail Rail-would not be the office of the Lexington Rail Rail-would not be same and the public generally the training a distanc scriptions already made, and we have the sum of Helm to answer the following questions:

thus pay \$225,000 in cash, instead of \$300,000 in bonds; Warren county \$187,500 in cash, instead of \$250,000 in bonds; Todd county \$150,000 in cash, instead of \$200,000 in bonds, and Simpson

county \$75,000 in cash, instead of \$100,000 in onds. By this process, the branch road would realize \$952,540 in cash from these sonrces, which would be far better than placing bonds in the hands of Gov. Helm, to feed the money cormorants, harpies, and Shylocks who infest the land. When this sum was exhausted, there would still be a balance of \$117,460 wanting to complete

the Governor's road. As that time, judging from the lethargic motions of the main stem, will not be likely to occur very soon, it is to be hoped that Louisville will then be in a much better financial ndition than she now enjoys, and that she can, justice to her own credit, and to her own citiens, and to the unfinished works she now has on haud, meet any call that may me made upon her. If she is called upon, however, even under those ircumstances, for \$300,000 of her bonds, we shall advise her to ask Gov. Helm at what he will dispose of them, and if he will take 75 cents on he dollar, we shall advise the city to pay the \$225,000 in cash, instead of giving her bonds, which are really worth par, to be thus sacrificed to the injury of her citizens and to the ruin of her credit. With this \$225,000 in cash from the city, and a sum not much greater realized from the sale of his first mortgage bonds, the Governor can complete, his branch road even at our estimate of its total cost. The road, too, thus completed, would have so small a bonded debt, that its stock would be worth something more than the on, fifteen or twenty cent trash of the main

Lexington Races.

LEXINGTON, Sept. 11th, 1853. Editors Louisville Courier: To-day opened the 'Extra Races." There was a very large crowd in attendance, over one hundred ladics being present. Seventhorses started, and got off beautifully. Kirtley's entry was the favorite at odds. The other six horses wasn't worth "the toss of a copper" hefore the first heat was run. llarper's Lincoln took the lead at the start, kept it and won the heat. Kirtley's entry was only half a head ehind. The time was made in 1:471/4.

The betting now changed. Even hets between arper and Kirtley's, and \$20 to \$15 there would be broken heats.

In the second heat there were six horses started,
Mr. Buford's entry having been distanced. The
horses all got off together, running "in a pile,"

Relief for the New Orleans Sufferers—An Explanation.

Ellitors Louisville Courier:—A few days since a dispatch was received from the chairman of the relief committee of the Young Men's Christian Association of New Orleans, asking pecuniary aid from our city. A committee was appointed by the association of this city to wait upon the citizens and solicit their subscriptions, and as many of our nost liberal citizens have refused to subscribe until it was explained to them why the Christian Association was embarrassed, while the Howard Association was refusing voluntary donations, I telegraphed to New Orleans for an explanation, n reply to which I have received the following

"New ORLEANS, Sept. 13, 1858 "J. J. Porter, President of Young Men's Christian Association.—President absent. Vice President died to-day. Howards have funds left over from '53, and do not co-operate with other associ-ations. More work here than any one association can do properly. six numered cases, and shall be shortly out of funds. Will write fully."

As to the position which the associatian holds in New Orleans, I shall only refer to the following extracts from the Commercial Bulletin, Sept. 6th.

"A new organization this year, for the first time, has entered the field of charity, and in noble rivalry with other and older ones, is covering itself with unfading lanreis, and calling down upon itself the "blessings of the poor and of him that was ready to perish." The Young Men's Christian was ready to perish." The Young Men's Christian Association have divided the city, we learn, into twenty-two districts, and appointed a committee for each, with physicians and apothecaries, and have established at a number of points, infirmaries, o which the sick, when necessary, are sent. resities require, with groceries and other provisions. We call this a Christian work, true philanthropy, a genuine exemplification of that charity which, if we may slightly alter Tennyson,

"Takes up the harp of Life and smites on all the chords with might, Smites on the chords of Self, that, trembling spasses in music out of sight." One word more and we have done. They will accept nothing for their own self-denying toils, but every hour they must spend money for med-cines, for nurses, etc., and hence they must have a large sum to meet the necessities which they find existing. This hint to New Orleans will be sufficient. Surely there is not a man in the city who, being able, will not put his hand into his pockets to aid them in their mission of love and

A PEACE WARRANT.—Fred. Pranner sued ont a peace warrant against a woman, Mrs. Housman, who he accused of fighting him, and theatened to pitch in again. It was also alleged that she kicked him with an umbrella. It further appeared that she had a page of the she had on the control of the she had on the s ed that she had heard that she had, on oue oc-casion, cleaned out a coffee house, and half killed the har keeper; that being a small man, and she a big woman, he is afraid of her, as he knows she can whip any common man. In her defense, she stated that complainant goes to coffee houses, and tries to persuade her husband off, too, and she won't put up with it. She was permitted to go on a the good work, but the men folks were required to give their own bonds to keep the peace six months, and the costs divided

ANOTHER PEACE WARRANT.—John Scott was presented on a peace warrant sued out by Mrs. Hannah McMichael, or Meekin, who said something about his nigger boy piling shavings under her cart, and setting fire to them to burn her cart.—The warrant was dismissed.

DRINK AND DISCRETARY AND PROPERTY OF Section 1. DRUNK AND DISORDERLY .- John Scott got off

cott free in the above case, but was next pre-nted on the double charge of drunkenness and lisorderly conduct, and snapping a pistol at Mrs. Surns. She testified that he was more crazy than burns. She testined that he was more crazy than anything else, and troublesome to the neighborhood. It appeared in defense that the Burns party rent a portion of Scott's house, and be wants them out, as they are very disorderly about the remises. The recognizance of Scott was taker

A Woman Down.—Margaret Collins was premented to the court on the charge of drunkenness and making her hed across an alley. She says she had the ague, and took a little quinine, dissolved in a pint or two of whisky, with a little bark, to shake off the chills. She had managed to vorry it all down, and hy some means or other he lost the use of her legs. She is a good way om Nashville, and on a promise to go there was

AIDING A SLAVE TO RENAWAY.—Miles Wilson, a free man of very black color, and hair so kinky that it is tied into knots, was in arrest on the dark and direful charge of aiding and abetting the escape of Charles, the slave of F. A. Moore, a baker. Mr. Wright, a collector on the Jefferson-ville ferry boat, testified that he saw accused and the slave Charles together on the boat has evening, on the way to Jeffersonville, and Miles paid the ferry for himself and Charles, saying the latter was all right. This didn't snit the collector, who questioned Charles, and finally arrested and brought him hack to the city. They said they who questioned Charles, and manly arrested and orought him hack to the city. They said they were going to a ball at Taibott's, but the witness aid there was no hall, or party, going on over there. The accused is a sort of sharp headed negro, who had served a time, or two in the Jefersonville penitentiary. Miles said they had manual him no harman harman land they had

rupped him up in a harry, and wanted the case ontinued, and it was continued.

The Starbing at the Ball. The two Jamisons, whose examination was published vesterday, stabbing John Donovan at the hall, were each neld to bail to answer a misdemeanor, and the whole posse, including Carter, were held in sums of \$300 for their future good behavior. From Utah.

The other win mers were Owen, who beat Salmon; Falkbeer, who beat St. Amant; and Brien, to whom Smith resigned. The ballot was taken for the third round and the players are thus paired: Brien and Falkbeer, and Owen with Staunton or Lowenthal.— Brien won one game from Falkbeer. On Thursday afternoon Mr. Morphy, the great American player, arrived from London, and it was arranged that he should play blindfold eight different games with eight of the best players present. He

won seven out of the games.

We understand, says the London Sun, that arrangements have been made for a match between
Mr. Morphy and Mr. Staunton, the celebrated En-

rangements have been made for a match between Mr. Morphy and Mr. Staunton, the celebrated English player, for £500.

In regard to the latter point the Critic says: "It appears that an effort is being made to raise the funds uccessary for backing our English champion against the American lad—for lad he is, and he looks much more juvenile than he is. The match with Herr Lowenthal offers, however, very little encouragement to Mr. Staunton's friends, and it is very confidently predicted that Mr. Morphy will have to return to America without vanquishing the king of English chess players. Having enjoyed an opportunity of overlooking Mr. Morphy's play, we may say that, in our opinion, he is certainly the most astonishing player we have ever beheld. He plays with great courage, and makes what appears to be the most alarming sacrifices; yet so profound and well guarded are his calculations that he is uver more dangerous than when he appears to be the most alarming sacrifices; yet so profound and well guarded are his when he appears to run the greatest risk; and, as we heard a veteran chess player remark, 'it is impossible to forese half his moves.' Another very wonderful peculiarity about him is the retentiveness of his memory. We are told, upon good authority, that after playing eleven or twelvegames, he will go home and play them over again from the beginning to the end, playing out the variations, and showing how he would have met any change of tactics ou the part of his adversary.'

THEATER.-There was a large audience last night to see the play of Hamlet, with Mr. Murdock as the philosophic Dane. Hamlet is undoubt edly the best tragic part this gentleman plays, and a variety of reasons adapts it to his peculiar talent and power. He is unequalled, it is coneeded, in this character on the American stage. Passages which to the casual reader may seem bscure, is rendered by him with such clearness, force and beauty, that its meaning is obvious, and the hearer wonders that its sense had not before inpressed his mind. So entirely does he merge his own individuality into the part, that we quite fancy the mad prince stands before us. While the whole conception is truthful, it is in the quicker scenes that its perfection is apparent. There is not a look, or tone, or jesture, all seemingly unstudied, but what is natural. Of course it met with immense favor from the audience. Mrs. Baker's Ophelia deserves the highest praise; but she is good in all she undertakes. The east other wise was fair, nothing more.

OAKLAND COURSE. - The race yesterday at Oak land was won by Arnold's sorrel horse in one heat. Time-1:55. Track heavy. After winning the heat with case, the stirrup of the rider of the gray broke and the boy fell. The owner of the gray claimed the heat, as the rider was off without the order to dismonut. But as it was an accident, and the rider had his proper weight, the beat was awarded as above. The owner of the other horse refused to let him contest another

DESTRUCTIVE FIRE IN CYNTHIANA, KY .- THIRTY FIVE VALUABLE HOSSES BERNT TO DEATH.—About the o'clock yesterday morning a fire broke out in Cynthiana, Kentucky, on the Kentucky Central Railroad, in a stable in which a number of valuable horses, destined for the Southern market, and worte \$250 to \$800 each, were confined. As the stable contained a large quantity of hav and

grain, the fire spread very rapidly, and thirty-five borses, in spite of every exertion to save them, perished in the flames.

The scene is described as one of wild and painul excitement. The flames flashing and leaping into the half darkness; the horses, frightened and maddened by the fire, plunged and neighed, and rushed among the burning timbers, but, with that peculiar fatality that attends their kind, made no attempt to escape the horrid death. y horses dragged out of the stable by main force would break their halters and run back into the nidst of the conflagration. They kicked and norted, and filled the air with cries pitiable to near, and with flaming bodies lay in agonizing seaps upon the earth, and rolled in horrid death

Three young men, who were asleep in the stable, escaped with great difficulty—indeed it was, for some time, feared they were lost—but uot without being slightly burnt in different parts of

A blacksmith shop and a dwelling were also destroyed, together with a jack (breaking) mule, worth \$2,000, making the total loss between \$18,

and \$20,000 .- Cin. Enq. Darnestows, Montgomert Co., Martland January 31st, 1857. Indicastion-I never fell the benefit of any medicine so much as from the bottle of Borhave's Holland Bit-

The Elixir, prepared by Dr. Jas. Williams for the cure of Dyspepsia, (as advertised in another column) has, by its own merits, obtained for itself so high a reputation in Philidelphia, that physicians acquainted with its properties are using t themselves and prescribing it to their patients, convinced by observation of its power in restoring the disordered digestive organs to healthy function Numerous cases of Dyspepsia of the most aggra vated character, which were abandoned as incura ble by some of the medical faculty, have, by the use of this "Elixir" alone, beeu restored to perfect health, as attested certificates testify.

AGUE AND FEVER, OR CHILLS AND FEVER, SPEEDILY CURED BY SMITH'S TONIC WHE attention of dwalers in Drngs and Medicines, and persons afflicted with Chills and Fever, or Ague and Fe-

IllE attention of dwalers in Drngs and Medicines, and persons afflicted with Childs and Fever, or Ague and Fever, ver, is respectfully invited to this celebrated medicine, which has justly obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedies, as a safe, certain, speedy, and permanent cure for Chilis and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, carefully selected rebable articles, and is always prepared by the proprietor in person, and, therefore, he can warrant it uniform in quality.

Its Diaphoretic and Alteralive properties, combined with its great Tonic qualities, render it eminently superior to Quinine, and other remedies, as a general and popular remedy in all cases where a Tonic is required and proper to be administered.

plainine, and other remedies, as a general and popular remedy in all cases where a Tonic is required and proper to eadministered.

It does not produce Rendache. Glddiness, Brazing of the Ears, or any of the unpleasant effects which so frequently attend the use of Quinine, or other remedies, but may be given in all cases, and under all circumstances whetever, to Females, Infants, and all persons who are debilitated, or have the most delicate constitutions, without he least apprehension of any injurious or even unpleasant effects.

Practitioners of facilities who have not prescribed it, and allicited persons who have not used it, are respectfully invited to give it but a fair trail, and they will then be convinced of its great appariority over other remedies and that it possesses all the virtues claimed for it.

It is not only perfectly safe and innocent in its effect, but in no case whatever has it been known to fall in curing Chills and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

Chilis and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a staple remedy, and for yearsine been extensively used threughout the States of Kentucky, Teunessee, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, I lineia, I. wa, Wisconsin, Ohio, Indiana, Nebraska, Pennsylvania, Michigan, and California, and more lately in Kans a Territory, and has permanently cured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the naus! remedies known in the country, and in no case did it fall to make a perfect and permanent cure where the directions were properly followed. Such is its invariables coess that it has gained the confidence, favor, and patronage of a large number of respectable practiliness of medicine throughout the country, who prescribe and administer it in preference to Quinino and other remedies. Persons living in districts of country subject to Chilis and Fever. Acus and Fever, or Ellious Fever, would do well to keep a constant supply of this invaluable remedy always on hard.

The proprietor has in his possession a large number of certifianes and or er test. In als from persons who have used this medicine, as well as from Physicians. Drugies: Apothecaries, and the redeems in medicine, attesting its superior virtues as a curative in Chilis and Fever, or Ague and Fever; and he could abiain many thousands

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA.

DISEASE OF THE KIDNEYS.

LIVER COMPLAINT.

Weakness of any kind, FEVER AND AGUE, And all the various affections consequent upon a diseased

STOMACH OR LIVER, ch as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Cos-tiveness, Blind and Bleedling Piles. In all Neryous, Rheumatic, and Neursigic Affections, It has in numerous instances proved highly beneficial, and in others effected

a decided cure.

This is a purely vegetable compound, prepared on This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated i foliand Professor, Berliave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the Americau public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

CAUTION:

The great popularity of this delightful Aroma has in-duced many initations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Bærhave's Holland Bitters a fair trial. One bottle will convince how infinitely supe-rior it is to all these imitations. Sold at \$1 per bottle, or six bottles for \$5, by the SOLE PROPRIETORS,
